Getting to know Sound Rise

**USB Charging Port**
Connect to charge a phone, tablet or other device with 5V / 1A of power. Use the USB charging cable provided with your device.

**DC Power**
Port to plug in the DC power adapter included with your Sound Rise.

**Auxiliary Line In**
Connect any device with a standard headphone jack using a Line in cable (not included) to listen to audio.

**FM Antennae**
Connect the external FM antenna (included) for improved reception.

**Screen Dimmer**
Press to select the preferred screen brightness. When screen brightness is off, tap any button to momentarily display the time.

**Tone Control**
Press to select your preferred sound equalization tone for audio playback: flat (default), warm or bright.
Setting the Time

1. Press and hold SET button for 2 seconds until the hour starts blinking.
2. Press the +/- buttons to adjust the hour.
3. Press SET button to confirm the hour.
4. Repeat steps 2 and 3 to complete setting the time. The time setting options are:
   - Hour
   - Minute
   - AM/PM
   - 12 or 24 hour time display
   - Day of the week
Setting the Alarm

1. Press and hold Alarm 1 or Alarm 2 button for 2 seconds until the hour starts blinking.
2. Press the +/– buttons to adjust the hour.
3. Press Set button to confirm the hour.
4. Repeat steps 2 and 3 to complete setting the alarm. The alarm setting options are:
   - Hour
   - Minute
   - AM/PM
   - Day of the week (everyday, weekends, weekdays or a specific day of the week.)
   - Wake up sound (Bluetooth, FM radio, Line in or built-in chime)
   - Wake up sound maximum volume

Note: To wake up to music from your phone or other device, you must first pair Sound Rise.

Note: When waking up to Bluetooth, Sound Rise will “play” the current song on your connected device. If your device is not available when the alarm goes off, Sound Rise will wake you with its built-in chime.
Using the Alarm

1. Press Alarm 1 ⏰ or Alarm 2 ⏰ button and the alarm settings will be displayed and the alarm will be turned on. When the alarm is on, the Alarm 1 ⏰ or Alarm 2 ⏰ icon will be displayed.

2. When the alarm goes off, press and hold Alarm 1 ⏰ or Alarm 2 ⏰ to turn the alarm off for the day.

3. If you prefer to get some more sleep after the alarm goes off, press SNOOZE and the alarm will go off and ⏰ will be shown on the display. The default snooze time is 10 minutes. Press the snooze button repeatedly to set the snooze time to 20 > 5 > 10 minutes. While alarm is being snoozed, tap the SNOOZE to see the remaining snooze time.

4. To turn the alarm off, press the Alarm 1 ⏰ or Alarm 2 ⏰ button until the icon is not shown (the display will briefly display “OFF”).
Using the Speaker

1. Press SNOOZE button or 🎶 to turn the speaker on.
2. Press 🎶 to select the audio source:
   - Bluetooth
   - FM Radio
   - Line In
3. Press + / - to set the volume.
4. Press SNOOZE button or hold the 🎶 for 2 seconds to turn the audio off.
5. Press the TONE button on the back of Sound Rise to select your preferred sound equalization tone for audio playback: flat (default), warm or bright.
Bluetooth Pairing

1. Press the Music or SNOOZE button to turn on the system.

2. Press the Music button repeatedly until $\mathcal{B}$ appears on the display to select Bluetooth mode.

3. Press PAIR on Sound Rise to start pairing mode. The Bluetooth icon on Sound Rise's display will flash rapidly.

4. On your phone, tablet or computer, open your Bluetooth settings menu to detect available devices. Once Sound Rise is detected, select it from the list of available devices to connect.

5. On iPod, iPhone and iPad devices tap to select “Sound Rise” from the list of devices in Bluetooth settings.

To pair another device, simply repeat the pairing process with steps 1 and 2 from Pairing Section. To re-connect a device that has already been paired, press and hold PAIR button on Sound Rise and select “Sound Rise” from your Bluetooth settings menu on your phone, tablet or computer. On most devices, no password is needed to pair, however, if a password is requested the default password is “1234”.
Listening via Bluetooth

1. Press the Music 🎵 or SNOOZE button to turn on the system.
2. Press the Music 🎵 button repeatedly until ☰ appears on the display to select Bluetooth mode.
3. You can change the volume by either using the volume buttons on Sound Rise or changing the volume on your paired device. For max volume, turn both volumes to maximum.
4. Use the Play Control buttons on Sound Rise to remotely control your connected devices and to play, pause and skip tracks.
Listening to the Radio

1. Connect the FM antenna to the antenna jack.
2. Press the Music button or SNOOZE button to turn on the system.
3. Press the Music button repeatedly until Radio appears on the display to select Radio mode.
4. Press the <</>> buttons to search a desired radio station for listening.
There are six radio presets to save your favorite FM stations. To save a preset:

1. Tune to the preferred station.
2. Press SET. The preset number will flash “P01”.
3. Press + / - to change the preset number.
4. Press SET to save the current station to the preset number selected.
5. To select a preset to listen to press ► to toggle through the preset stations. When a preset station is selected press SET to toggle between displaying the frequency and the preset station number.
Listening with Line In

1. Connect any device with a standard headphone jack using a Line in cable (not included) to the AUX IN on the back of Sound Rise.

2. Press the Music 🎶 or SNOOZE button to turn on the system.

3. Press the Music 🎶 button repeatedly until ⌚️ appears on the display to select Line In mode.

*Note: For power conservation remove the line in cable when not in use.*
Using the Sleep Timer / Nap

Use SLEEP button 🛌 to set a timer to either listen to music while falling asleep or to set the nap timer.

When SLEEP is selected while music is ON, the music will turn off at the end of the timer.

When SLEEP is selected while music is OFF, the nap alarm will go off at the end of the timer to wake you up.

1. Press the SLEEP button 🛌 repeatedly to set the timer duration: 15 --> 30, 60, 90, 120, OFF.
2. The sleep icon SLEEP will be shown on the display. When sleep is set for a nap, the sleep icon SLEEP will blink. When the time is displayed, tap sleep to briefly display the remaining time.
3. To turn the timer off, press sleep button 🛌 repeatedly to select OFF. The sleep icon SLEEP on the display will turn off.
Setting Screen Brightness

1. Press **DIMMER** on the back of Sound Rise to change the screen brightness.

2. When the screen brightness is off, press any button to momentarily turn the display on to see the time or operate any functions.

3. When the alarm goes off and the screen brightness is off, the display will automatically turn on. If **SNOOZE** is pressed, the display will turn off again until the alarm goes off again.

4. When the display brightness is off and an alarm goes off, the brightness will be turned on for the day. If you prefer to keep the screen brightness turned off even after the alarm has gone off, press + and - together and OFF will be displayed on the screen indicating “Black out mode”. To return to normal display brightness, press + and - together and ON will be displayed on the screen indicating “Black out mode” has been turned off.

*NOTE: When audio is off, you can also press the **TONE** button or +/- buttons to change the screen brightness.*
Charging an External Device

You can charge most phones as well as other USB chargeable devices such as tablets, Bluetooth headsets and digital cameras directly from Sound Rise. Simply connect your device to the USB Port on the back of Sound Rise to begin charging.

Note: Please use the charging cable that was provided with your device. The maximum charging output of Sound Rise is 5V / 1A.
