Hi,
Let’s get started.
Welcome,

We are a co-op of craftsmen—designers and engineers—with a passion for great sound. We develop our products from the ground up to offer premium sound quality and wireless versatility.

Thank you for choosing Sound Step. We sincerely hope that you enjoy your new wireless speaker system. Please share your experience with us:

Aux In
Turning on Sound Step

1. Plug in the power supply and connect to the power port on Sound Step.
2. Press **Power Button** on Sound Step.
   - *When Sound Step is on, the Light Bar will be lit.*
Listening to your iPod, iPhone & iPad

Connecting via Lightning Dock

1. Remove *Universal Stand / Dock Cover*. If your iPod, iPhone or iPad is in a case, remove *Rubber Spacer* as well.

2. Place iPod, iPhone or iPad onto Lightning connector.

*When your iPod, iPhone or iPad is successfully docked it will automatically start to charge*

3. Select iPod mode by pressing *Dock Source Button* on Sound Step or the *Source Button* on the remote control until *Dock Source Button* on Sound Step is selected.

4. Use *Play Controls* on Sound Step, the remote control or directly from your iPod, iPhone or iPad.
**Listening to your iPod, iPhone & iPad**

**Connecting via USB Cable**

1. Connect your iPhone/iPad/iPod to the USB jack on the rear of the unit via 30-pin USB cable or Lightning USB cable (cables not included).

*Your iPod, iPhone or iPad will start charging automatically when connected with USB when Sound Step is on.*

2. Press **USB Source Button** on Sound Step or the **Source Button** on the remote control until USB button on Sound Step is selected.

3. Use **Play Controls** on Sound Step, the remote control or directly from your iPod, iPhone or iPad.
Press **Bluetooth Source Button** on Sound Step or the **Source Button** on the remote control until Bluetooth button on Sound Step is selected.

Press **Pair Button** on Sound Step to start pair mode, the Light Bar will flash rapidly.

On your phone, tablet or computer, enter your Bluetooth settings menu to detect available devices. Once Sound Step is detected, select it from the list of available devices to connect.

**On iPod, iPhone and iPad devices tap to select “Sound Step” from the list of devices in Bluetooth settings**
The Light Bar turns solid after successfully connected. After 3 minutes, if no device is connected, pairing mode will be canceled and the Light Bar will stop flashing.

Please visit “support.soundfreaq.com” for detailed pairing instructions for Mac or Windows PC.

To pair another device, simply repeat the pairing process with steps 2 and 3 above. To re-connect a device that has already been paired, press **PAIR** button on Sound Step and select “Sound Step” from your Bluetooth settings menu on your phone, tablet or computer.

On most devices, no password is needed to pair, however, if a password is requested the default password is “1234”.

You can use the **Play Control Buttons** on Sound Step to remotely control you connected devices and play, pause and skip tracks.
Listening via Line In

1. Press Aux Source Button on Sound Step or the Source Button on the remote control until Line in button on Sound Step is lit.

2. Connect any device with a standard headphone jack with a line in cable (not included).
Charging Devices with USB Power Port

You can charge most phones and tablets as well as other USB chargeable devices such as Bluetooth headsets and digital cameras directly from Sound Step. When Sound Step is turned on, simply connect your device to the USB Port on the back of Sound Step to begin charging.

Sound Step must be plugged in to charge devices through USB. The maximum charging output current is 1A. Please use the charging cable that was provided with your device.
The Soundfreaq App is available for iOS devices from the App Store. The first time you dock your iOS device to Sound Step, you will be asked to download the app. The app is free and can be used to control for Sound Step. Additionally, when docked the app can be used to access and control Sound Step’s internal FM radio. Attach the FM antennae for improved reception.

To download the app directly, please visit the App Store from your iPhone, iPad or iPod touch.
